DISCOVERY PROCESS	5
STRUCTURE OF SAHT	6
RENEWED IDENTITY	7
VISION: 2027 STRATEGIC OBJECTIVES	8
STRATEGIC VISION IMPLEMENTATION	20
ANNUAL PLAN	24
APPENDIX	27

## — Executive Summary

The San Antonio Housing Trust (SAHT) is pleased to share our organization's Five-Year Strategic Plan. This comprehensive plan is the result of a long-term community engagement process that began in 2018 with the adoption of the City's Housing Policy Framework designed to focus our collective efforts on meeting the critical housing needs of our community. The framework set forth a challenge to assess and realign SAHT's impact on our housing ecosystem.

This community engagement effort continued with the City of San Antonio's Strategic Housing Implementation Plan (SHIP), which establishes goals, timelines, actions, funding approaches, and institutional partners – like the San Antonio Housing Trust – who are critical to achieving the affordable housing production and preservation goals. The City's overarching SHIP provided the playbook on which our SAHT Five-Year Strategic Plan is based.

Our Five-Year Strategic Plan is organized into six Sections:

1. Establish our belief and core values system
2. Reframe our purpose and state our mission
3. Set forth strategic objectives
4. Establish Key Results
5. Identify implementable strategies to achieve those Key Results
6. Set realistic goals and track core vitals

We recognize that SAHT is not the only partner aligned to achieving affordable housing production and preservation goals in our community. However, due to our expertise, financing tools, and funding, we are uniquely positioned to facilitate efforts that will have long-term positive impacts on the place we call home.

I personally want to thank the numerous advocacy groups, development stakeholders, institutional organizations, and community stakeholders that gave their time and energy to engage through our focus groups, interviews, and surveys both in this plan and other consequential collaborative efforts that paved the way for our new strategic focus moving forward.

---

**Pedro Alanis, Executive Director**

# Discovery Process

The strategic planning efforts began when the SAHT Foundation Board authorized staff to issue a request for proposal in July 2021. In November 2021, SAHT formed a strategic planning committee and selected the consulting group Mission Matters Group (MMG) to help guide the committee through the process. The process kicked off in April 2022 with MMG reviewing previous plans and reports recommended by staff of the Trust. Discovery interviews, focus groups, and surveys began in April and continued through the end of June. We invited over 100 to participate and about 50 stakeholders participated in interviews and/or completed surveys during the process, including:

- Board members
- City representatives
- Community housing advocates
- Community housing development organization representatives
- Housing developers

The full list of participants in one-on-one interviews and focus groups, as well as those invited to complete an online survey, is included in Appendix I.

The discovery interviews, focus groups and surveys generated valuable input on the perceived role of the Trust, its unique strengths, its challenges and constraints, and the vision and short-term priorities over the next three to five years. While there were other topics that made up each discussion, these topics were the areas of focus with each stakeholder and group.

Upon completion of the discovery discussions and surveys, MMG provided a synthesis of the findings to the SAHT staff who in turn shared it with the Policy and Governance Committee and the SAHT Board of Directors. This concluded the discovery phase and shifted the focus to developing the strategic plan.

The SAHT staff and MMG developed the plan, then SAHT staff offered the Policy and Governance Committee and Board opportunities to provide input and feedback at their monthly meetings. Staff incorporated this input as the plan developed in an iterative format. The Compass, Objectives and Goals are the result of that collaborative development process.

As part of the discovery process, MMG reviewed several recent affordable housing plans and assessments. These include:

- San Antonio's Housing Policy Framework: The Cornerstone of Economic Development (Mayor's Housing Policy Task Force, August 2018)
- An Organizational Assessment and Strategic Recommendations for the San Antonio Housing Trust (NALCAB, July 2019)
- Strategic Housing Implementation Plan (SHIP): 2022-2031 Housing Plan for the City of San Antonio and Bexar County (City of San Antonio, December 2021)
- Community Bond Committees' Report and Recommendations: Proposed 2022-2027 Bond Program (City of San Antonio, January 2022)

## Structure of SAHT

The San Antonio Housing Trust is made up of the following four legal entities:

- San Antonio Housing Trust (SAHT), established in 1988
- San Antonio Housing Trust Foundation (SAHTF), established in 1990
- San Antonio Housing Trust Finance Corporation (SAHT-FC), established in 1997
- San Antonio Housing Trust Public Facility Corporation (SAHT-PFC), established in 2009

# Renewed Identity

Staff leadership worked with MMG to clarify the Trust's Beliefs, Mission, Values and Vitals, and the role and core identity of the Trust in the local housing system. Stakeholders shared their input on SAHT's Beliefs and Values, and the results represent the identity that most resonated. Clarifying the identity of the Trust is the first step toward Strategic Objective No. 1: "Clarify the Role of the Trust in the Local Housing System."

## Beliefs

- Housing is a human right.
- Housing should be affordable and attainable for persons at all income levels while providing for stable, autonomous, and dignified living.
- Housing should be designed to accommodate persons with all body types and abilities.
- Housing should limit the impact on our environment and be resilient to changing climate.

## Statement of Purpose:

- Provide additional and continuing housing opportunities for low- and moderate-income families
- Promote public health, safety, convenience and welfare by mitigating the extent to which low- and moderate-income households, as defined by the City, are unable to afford decent, safe and sanitary housing
- Revitalize our neighborhoods through appropriate housing activities

## Mission Statement:

The purpose of the San Antonio Housing Trust is to create and preserve housing that is affordable, accessible, attainable, and sustainable to San Antonio residents; and to support community development efforts that build and sustain neighborhoods, empower residents, and provide positive equitable outcomes.

## Values

- **Compassion:** Our empathy toward our residents leads us into action
- **Equity:** We strive for fairness and justice as we create housing opportunities that account for the different histories, challenges, and needs of the residents in San Antonio
- **Innovation:** We bring a mindset of continuous improvement to all our work
- **Agility:** We are flexible in our approach, bringing responsive and dynamic solutions
- **Integrity:** We affirm there is strength in honesty and transparency

## Vitals

To gain alignment as well as shape the long-term objectives and annual priorities, the Trust defined a set of essential metrics as key indicators of success and sustainability. Measured annually in perpetuity the Vitals serve as the foundation to defining success year over year.

- Total number of multi-family (MF) units properties preserved
- Number of rental units preserved for households with income between 31 and 80% Area Median Income (AMI)
- Number of units preserved for households with income below 30% AMI
- Total number of MF units on properties added
- Number of rental units added for households below 30% AMI
- Number of rental units added for households between 31 and 60% AMI
- Total number of MF units placed in service
- Total number of MF units under construction
- Number of Permanent Supportive Housing units produced for persons experiencing chronic homelessness
- Total number of land parcels acquired and placed in land bank
- Amount of funding for Community Land Trust(s)
- Amount of grants or loan funds awarded
- Amount of tax-exempt bonds issued

# Vision:

## 2027 Strategic Objectives

OBJECTIVES	KEY RESULTS
<p><b>Objective 1:</b> Clarify the Role of the Trust in the Local Housing System</p>	<ul style="list-style-type: none"> <li>• Clarified role for SAHT</li> <li>• Renewed identity for SAHT entities</li> <li>• Recognized as a thriving partner in housing ecosystem</li> <li>• Increased public confidence</li> </ul>
<p><b>Objective 2:</b> Invest in the Trust's Capacity to Grow</p>	<ul style="list-style-type: none"> <li>• Organizational operational system established</li> <li>• Financial expenditure plan created</li> <li>• Cash investment policy adopted</li> <li>• Staff development plan enacted</li> <li>• Succession plan established</li> </ul>
<p><b>Objective 3:</b> Facilitate the Preservation of Affordable Rental Housing</p>	<ul style="list-style-type: none"> <li>• 3,711 rental units preserved</li> <li>• PFC Tax Exemption and Tax-exempt Bonds used to rehabilitate 14 properties</li> <li>• Housing Preservation Network established</li> <li>• Multifamily Rental Rehabilitation program with criteria established</li> </ul>
<p><b>Objective 4:</b> Contribute to the Construction of New Affordable Rental Housing</p>	<ul style="list-style-type: none"> <li>• 5,925 affordable rental units in 28 communities added</li> <li>• 300 PSH units added in 3 site-based PSH communities</li> <li>• Improved Multi-Family New Construction Program</li> <li>• Land banking program created</li> </ul>
<p><b>Objective 5:</b> Support Neighborhood Preservation Efforts</p>	<ul style="list-style-type: none"> <li>• Community Land Trust(s) established</li> <li>• Non-profit organizations focused on preservation and production SHIP targets supported</li> </ul>
<p><b>Objective 6:</b> Engage in Advocacy at Local, State, and Federal Levels</p>	<ul style="list-style-type: none"> <li>• Expanded engagement and education</li> <li>• Board members and community partners engaged</li> <li>• Better informed policy makers</li> <li>• Increased revenue and resources for the local housing ecosystem</li> </ul>

## A Results-Oriented Plan

The 2027 Strategic Objectives define the vision for SAHT. These six objectives were the most important areas of focus throughout the discovery and iterative development process. Using the Objectives and Key Results (OKR) format, the intent is to balance the big, inspirational goals (Objectives) with the clear measurable results that define success for each Objective (Key Results). Each of these six Objectives and desired Key Results was carefully selected to drive clarity on where SAHT is headed over the next five years while offering flexibility to define the details annually and prioritize Key Results to focus on each quarter.

The plan follows the Objectives and Key Results format for several reasons:

- 1. Agility:** SAHT, like every organization, exists in an ever-changing, dynamic world. If we detailed every strategy for the next five years, many of them would be irrelevant after a year or two. The alternative is to commit to the results that SAHT wants to achieve over the next five years. Using this format, each year we will determine the supporting strategies needed to achieve the five-year results.
- 2. Focus:** OKRs drive focus. By setting just six objectives, we ensure that SAHT focuses our strategic efforts on this handful of objectives. It creates a filter whereby key stakeholders consider each new opportunity against the existing strategic objectives
- 3. Monitoring:** Every Key Result is written to make tracking possible, and each OKR will be tracked via the metrics established when it was written. SAHT will be able to measure quarterly and annual progress toward the five-year OKRs in this plan
- 4. Qualitative and Quantitative:** The Objectives are aspirational, aligning and easy to understand, but by themselves, they are incomplete. The Key Results describe the finish line. They help teams clearly understand the measurable definition of achievement. By leveraging both an aspirational Objective and a measurable set of Key Results, SAHT will be able to rally stakeholders around our vision and measure progress toward achieving it.

For each OKR, the Trust proposes Supporting Strategies to achieve the desired results. The strategies are intended to serve as a roadmap for the staff and Board, will be revisited during annual reviews, and may change based on circumstances or other developments.

### Objective 1: Clarify the Role of the Trust in the Local Housing System

While none of the Objectives is more important than the others, nearly every stakeholder raised the need to clarify the role of the Trust in the local housing system. This Objective is listed first to demonstrate the importance of clarifying and communicating the role of the Trust in order to achieve the rest of the Objectives.

Most stakeholders engaged throughout the process indicated some level of familiarity with the purpose of the Trust and consistently cited its goal of supporting the creation – either through preservation or construction – of more housing that is affordable for San Antonio's vulnerable residents. However, participants' descriptions of the role of the Trust varied greatly, including:

- A marketing, resource or development arm or extension of the City
- A financing partner to developers that is evolving into an investor or owner of affordable housing
- An advocate for affordable housing

Stakeholders' limited understanding of the role of the Trust is among the reasons that clarifying its role within the local housing system surfaced as an important Objective for the strategic planning process.

The Trust has already taken an important step to create clarity in its role by realigning the governance structure for its four entities in response to an assessment conducted by the National Association for Latino Community Asset Builders (NALCAB) in 2019. In June 2021, the City Council established a new governing structure so that the four entities share the same twelve members, including:

- 5 City Council members
- 3 community representatives with experience in housing advocacy, non-profit fundraising, policy-making or community engagement; or who reside in an affordable housing unit
- 3 housing industry experts with experience in real estate, financial underwriting, property development, housing finance, capital markets, lending, construction, property management, or other relevant industry experience
- 1 City representative.

The City Council also affirmed the following Statement of Purpose for the Trust:

*The primary purposes and goals of this Trust are to provide additional and continuing housing opportunities for low and moderate income families; to promote the public health, safety, convenience and welfare by mitigating the extent to which San Antonio's low and moderate income households are unable to afford decent, safe and sanitary housing within the City of San Antonio; and to revitalize neighborhood and downtown through appropriate housing activities.*

One Key Result to prioritize is education of board members and the broader community about the primary purposes of the Trust and the role(s) that the Trust will play, as a quasi-governmental organization, working within the City of San Antonio. While the Trust has asset management and compliance oversight responsibilities as an owner or general partner in many affordable housing communities, it does not internally develop or manage properties, nor does it directly provide support services to residents of its housing communities.

While each of its four entities was formed for distinct reasons and empowered with certain tools, as delineated in the articles of incorporation, the Trust must decide which key role(s) it is able and willing to take on as it implements actions informed by policies set by the City Council. Clarifying and communicating the overarching role of the Trust and its relationship to the City of San Antonio and other public agencies that focus on housing and homelessness – such as Opportunity Home San Antonio (Housing Authority) and the South Alamo Regional Alliance for the Homeless (SARAH) – will better position the Trust to achieve its Objectives.

A second Key Result will be the Board's adoption of a Compass that defines core identity elements and enables the Trust to have and communicate a shared identity. This effort should provide a strong foundation for future planning and development of policy that guides the collective action of its four entities.

Another key area of focus to clarify the Trust's role and continue growing as an integral partner in the local housing ecosystem will be its active participation in the County-Wide Housing System Analysis identified as a priority in the Strategic Housing Implementation Plan (SHIP). One of the primary goals of this analysis, led by the City of San Antonio's Neighborhood Housing Services Department (NHSD), is to align function with stakeholder needs and avoid duplication of services. Given the overwhelming need for affordable housing and the limited resources of each partner in the system, it will be critical that SAHT focus its efforts on its purpose, role and resources, and leverage those to the greatest extent possible.

While this plan will be a key resource, providing direction for stakeholder alignment, the Trust should recognize that there are other lead conveners and organizing entities that are also focused on addressing the affordable housing needs in San Antonio. To increase the effectiveness of available resources and ensure efficiency of efforts, the lead conveners should commit to meeting regularly. Those groups include but are not limited to: the Trust, NHSD, Opportunity Home San Antonio (Housing Authority), Bexar County and SARA.H.

## Key Results

- Board is clear on and supportive of the key role(s) the Trust will play in achieving its stated purposes.
- The entities of the Trust have a shared identity.
- The Trust is a thriving partner within the local housing ecosystem, as evidenced by its participation in the County-Wide Housing System Analysis and implementation of recommendations from that report.
- Public confidence in the trust is rebuilt as a result of improved communication with stakeholders and the public, along with transparency in its public relations efforts.
- Role of community representatives and housing experts on the Board is elevated, as evidenced by committee involvement and decision-making input.

## Supporting Strategies

- Staff and Board of the Trust adopt the Compass.
- Actively participate in County-Wide Housing System Analysis recognizing its obligation to work within the City limits.
- Raise awareness of efforts and successes, including information on why some efforts may be unsuccessful, through improved public relations and education, and greater transparency.
- Solicit stakeholder input on an ongoing basis.
- Incorporate and leverage voices of community representatives and housing experts on the Board vis-à-vis community stakeholders and advocates.
- Develop, adopt and publish criteria for programs and funding policies that are consistent with its Values.

## Objective 2: Invest in the Trust's Capacity to Grow

The City of San Antonio created the SAHT with a corpus of \$10 million in 1988. Since that initial investment almost 35 years ago, the City had not made additional investments into the Trust Fund, until the City's FY 2023 Adopted Budget which provided \$233,533 in September of 2022. The effectiveness of the Trust Fund has severely eroded with inflation over time, and it barely generates enough interest to cover administrative costs. The incorporation of San Antonio Housing Trust Public Facility Corporation (SAHT-PFC) in 2009 enabled the Trust to become a partner

in affordable housing developments through its tax exemption powers to increase financial viability of affordable housing while creating a new revenue stream. Over the past decade, the Trust has generated sufficient revenue to cover operating expenses and make grants to local nonprofit organizations. It has also entered into 42 development partnerships that should produce consistent income for the organization into the future. Staff levels, however, have remained essentially the same over the same decade.

To realize greater impact on the growing need for affordable housing and achieve the ambitious goals in its five-Year Strategic Plan, the Trust must grow its financial and human capacity. Building a stronger financial backing will allow the Trust to solicit proposals and fund projects that are in line with the City's vision to focus limited resources on housing that provides deeper affordability. The Trust will also need to recruit and hire in-house personnel to perform roles that are currently contracted out, such as legal and finance, and increase its capacity around asset management and communication. In addition, stakeholders recommended that the Trust build up its internal expertise on affordable housing finance to avoid an actual or perceived reliance on outside counsel and private developers to analyze deal structures and agree to deal terms. While some stakeholders suggested the Trust grow its capacity to work throughout Bexar County, the Trust is, by charter and statute, not allowed to engage in activities outside of the City.

A Key Result will be identifying a steady stream of funds to grow the corpus of the Trust (hereby making it less reliant on its PFC's activities to maintain operations) and a dedicated source of capital to help close the financing gap in affordable housing projects. Growing the financial capacity and resources of the Trust will strengthen its ability to solicit development proposals that are responsive to a consistent set of deal terms, affordability requirements, sustainability goals, and guiding principles. The desire for greater consistency should, however, not prevent the Trust from remaining agile and flexible in terms of its approach and tools, when and where it is necessary and possible.

Another Key Result is growing the staff capacity and expertise to achieve the goals of the Five-Year Strategic Plan. The staff size of 5 people limits the Trust's ability to expand its focus beyond making and servicing loans to nonprofit organizations, initiating new SAHT-PFC deals and fulfilling the role of general partner on multiple projects. Based on an analysis of its budget, the Trust can reasonably plan to grow its team by one to two full-time staff persons over the next twelve months, and by another one to two persons in the following twelve months. The new staff should have specialized focus in housing development; finance or accounting; asset management; and public engagement, communication or advocacy.

## Key Results

- An organizational operating system is successfully adopted, as evidenced by setting and monitoring annual and quarterly goals, to include a public-facing dashboard tracking Vitals.
- A financial expenditure plan is developed, consistent with the Five-Year Strategic Plan.
- Staff capacity and expertise are increased to achieve the goals of the Five-Year Strategic Plan.
- A staff development plan is developed and implemented.
- A cash investment policy of non-corpus funds is established to direct the growth of existing cash.
- An annual stream of additional corpus investment is identified to help grow the fund.
- A succession plan is created.

## Supporting Strategies

- Utilize the corpus as guarantees or reserves for SAHT initiatives.
- Pursue additional SAHT-owned housing opportunities to build long-term community equity.
- Leverage long-term streams of revenue to capitalize funding for future SAHT initiatives.
- Establish new creative programming that the City can invest in with bond funding.
- Grow team by as many as 4 full-time professionals over the next two years with specialized focus in housing development; finance and accounting; asset management; and public engagement, communication or advocacy.

### Objective 3: Facilitate the Preservation of Affordable Rental Housing

The San Antonio community understands that it cannot build itself out of the current housing affordability crisis. For too long, demand has far exceeded the supply of affordable housing, and wages are not keeping up with rising housing costs. The Trust appreciates the importance of prioritizing the preservation of existing affordable housing and enforcing and expanding affordability restrictions. To achieve its goal of continuing housing opportunities for low- and moderate-income families, the Trust will prioritize the preservation of existing multifamily rental housing by:

- Ensuring low-income housing restrictions are either placed or remain in place
- Preserving long-term housing affordability by extending restrictions
- Extending the life of existing structures, including safety, accessibility, sustainability, and climate resiliency upgrades

The Trust is committed to collaborating with the City and other partnerships identified in the SHIP to implement the recommendations therein. As such, a Key Result will be making a significant contribution to the Ten-Year SHIP targets for preservation of rental units between 30% and 80% of the area median income (AMI). In alignment with the San Antonio Housing Commission and the SHIP, the Trust uses “affordable” to describe income-restricted housing for renters with incomes of up to 60% AMI (\$44,820 in 2022 dollars for a family of three). Income-restricted housing for renters with incomes of up to 80% of AMI shall be considered “moderate income” by the City’s definition.

Another Key Result will be supporting the NHSD in its efforts to preserve existing older multifamily housing stock and extend the affordability period on affordable housing developments that serve households with incomes at or below 60% AMI (SHIP-HPRP1). The Trust has a strong track record of collaborating with nonprofit housing developers, known as Community Development Housing Organizations (CHDOs), and will support their efforts to acquire and preserve or add affordability. The aim is to address not only the expiring use properties developed with Low Income Housing Tax Credits (LIHTC), but also the naturally occurring affordable units by encouraging rehabilitation by private landlords.

Another area of focus will be providing flexible gap financing to incentivize and support the preservation of housing that is affordable to extremely low-income (ELI) households with incomes at or below 30% AMI. According to the SHIP, NHSD is the lead partner on this effort. The Trust will be an active partner in establishing a dedicated revenue source of this gap financing.

## Key Results

- 3,710 rental units affordable to households in the following income brackets preserved:
  - <30% AMI: 313
  - <50% AMI: 113
  - <60% AMI: 2,850
  - <80% AMI: 435
- Affordable housing providers supported to meet preservation goals with the utilization of the PFC Tax Exemption tool and Tax Exempt Bond program on 14 properties.
- Preservation network established (SHIP - HPRP 8, FY2022)
- Multifamily rental rehabilitation program established (SHIP - HPRP 1, FY 2024)
- Multifamily preservation and rehabilitation criteria established that promotes increased accessibility, universal design, and sustainability features (SHIP - HPRP 4, FY 2026)

## Supporting Strategies

- Monitor LIHTC properties in San Antonio to assess, prioritize, and develop preservation plans for at-risk properties with expiring land use restrictions or covenants.
- Partner with nonprofit developers to acquire and preserve multiple smaller properties that may not be financially viable as a 4% LIHTC on their own but can be pooled into a single financing package.
- Partner with developers to acquire and rehabilitate multifamily rental properties under PFC ownership for permanent affordability. This may include adding or extending affordability restrictions on SAHT-financed properties.
- Provide gap financing to support the preservation of multifamily rental developments by affordable housing partners, including Opportunity Home, focusing on affordable to households, prioritizing those with incomes from less than 30% AMI to 80% AMI.
- Support NHSD to increase preservation of housing affordable to households with income at or below 30% AMI by increasing City support and establishing a dedicated revenue source for gap financing. (SHIP – HPRP 7, FY2022).
- Leverage SAHT funding for accessibility, universal design, sustainability, and/or climate resiliency grants to multifamily rental properties serving targeted populations that are aligned with the SA Climate Ready goals and social determinants of health goals (SHIP-HPRP 9, FY 2024)

## Objective 4: Contribute to the Construction of New Rental Housing that is Affordable

The Trust has a strong record of providing flexible gap financing to incentivize and support the production of multifamily rental developments that are affordable to households with a mix of incomes. Prior to initiating its strategic planning process, staff was already contemplating the benefits and costs of continuing to fund mixed-income developments that serve households up to and over 80% AMI. Throughout the public engagement process, stakeholders encouraged and voiced approval of the Trust's commitment to funding housing projects that offer deep and permanent affordability. While there was recognition that market rate units are also necessary to avoid concentrating poverty and allow people to remain in their neighborhoods as their incomes rise, most participants expressed concern with supporting market rate housing with public funds.

To achieve its goal of providing additional housing opportunities for low- and moderate-income families, the Trust will prioritize the creation of new multifamily rental housing by producing:

- New LIHTC developments
- Inclusive mixed-income housing to be owned by SAHT
- Permanent Supportive Housing (PSH)
- Permanently Affordable Multifamily Land Trust with Non-profits

The Trust is committed to collaborating with the City and other partners identified in the SHIP to implement the recommendations therein. As such, a Key Result will be making a significant contribution to the five-year rental targets in the SHIP by producing an estimate of 5,925 new affordable rental housing units across an estimated 28 projects, depending on available resources and market conditions. In alignment with the San Antonio Housing Commission and the SHIP, the Trust uses "affordable" to describe income-restricted housing for renters with incomes of up to 60% AMI (\$44,820 in 2022 dollars for a family of three).

Another Key Result will be the production of 300 PSH units at three site-based PSH projects for persons experiencing chronic homelessness with incomes at or below 30% AMI in San Antonio. This will be accomplished in partnership with Continuum of Care nonprofit providers and will require identifying capital and operating funds to incentivize and support the creation of site-based PSH. According to the SHIP, the Trust is one of five lead partners that will focus on adding 1,000 service-enriched PSH units over the next ten years.

Another Key Result will be to lead the local effort to increase funding for affordable developments and make improvements to multifamily new construction programs. Among the key challenges to developing housing that is affordable is the lack of a clearly defined dedicated source of capital for developers to access to address financing gaps. When the City Council created the San Antonio Housing Trust Fund in 1988 with a corpus of \$10 million, the expectation was that the interest earned from the corpus and the payback of loans would capitalize funding rounds. However, because the interest generated by the fund is not sufficient to sustain the work of the Trust and meet the overwhelming demand for affordable housing, the Trust has had to find other ways to generate income. It is imperative that the Trust, along with other leaders in the local housing ecosystem, identify additional funds to achieve the production goals outlined in the SHIP.

Another Key Result will be the establishment of a land banking program that will allow for the acquisition of land for future affordable housing projects. SAHT was identified as the lead partner working with the Office of Historic Preservation (OHP) to preserve land near community assets to reduce the costs of developing affordable housing and reach deeper levels of affordability. This is consistent with the SAHT's goal of revitalizing neighborhoods and the downtown area through appropriate housing activities.

## Key Results

- 5,925 new rental units added in mixed-income developments for households in the following income brackets:
  - <30% AMI: 600
  - <50% AMI: 375
  - <60% AMI: 4,950
- 300 PSH units produced for persons experiencing chronic homelessness at or below 30% AMI across three site-based PSH projects. (SHIP - HPRP 6, FY 22)
- Twenty-three LIHTC and five essential bond projects participated in.
- Improvements made to the Multi-Family New Construction Program serving persons at or below 60% AMI (SHIP - HPRP 2, FY23).
- Land banking program established to acquire land for future housing projects affordable to households with incomes at or below 60% AMI (rental) and up to 80% AMI (ownership) (SHIP - CIH 5, FY25).

## Supporting Strategies

- Adopt the City of San Antonio's Displacement Impact Tool to assess potential impacts to nearby residents at risk of displacement, and incorporate it into the SAHT's final Tax Credit Development Criteria.
- Partner with developers to create LIHTC projects that serve the targeted populations and require lower developer fee splits from nonprofit partners so they may increase their earnings to continue their missions.
- Engage with Continuum of Care nonprofit providers to identify PSH development partners and initiate pre-development efforts.
- Maintain SAHT cash resources to fund operating and supportive services reserves for PSH.
- Establish multifamily new construction criteria that promote site selection, equity, digital access, tenant protections, increased accessibility, universal design, and sustainability features.
- Prioritize the use of publicly owned land to build affordable housing.
- Identify and acquire property suitable for future redevelopment including SAHT-owned inclusive housing, multifamily land trusts, or PSH.

## Objective 5: Support Neighborhood Preservation Efforts

Among the goals of the Trust is to promote public health, safety, convenience and welfare by mitigating the extent to which San Antonio's low and moderate-income households are unable to afford decent, safe and sanitary housing within the City of San Antonio. To achieve that goal, the Trust has prioritized, as one of its Strategic Objectives, the preservation of existing neighborhoods by supporting the SHIP strategy of increasing city investment in housing with a ten-year funding plan.

During the public engagement process, stakeholders raised concerns over the impact that market rate and some mixed-income developments can have on existing residents. Specifically, community representatives expressed concern about the use of the PFC's tax exemption to support housing developments that can raise property values and, as a result, increase property taxes on neighboring landlords and homeowners. This concern, as well as concerns over displacement, have led to the creation of an Anti-Displacement Agenda for San Antonio and a strategy in the SHIP that involves the development of a Displacement Impact Assessment. The Trust intends to incorporate the Assessment's criteria into its own Tax Credit Development Policy once it is completed by the City's NHSD.

The Trust is committed to preserving communities with strategies that focus on preventing displacement, preserving historic structures, protecting legacy families, and respecting the cultural fabric of neighborhoods impacting Black, Indigenous, and People of Color (BIPOC). SAHT will demonstrate its commitment and support neighborhood preservation efforts by using the Displacement Impact Tool to inform its development activities and avoid contributing to gentrification of neighborhoods.

One Key Result will be the establishment of one or two Community Land Trusts (CLT) to help prevent displacement and support affordable homeownership, particularly among BIPOC households. The Trust acknowledges the need for affordable infill housing on vacant lots and will fund the CLTs to facilitate this work. Efforts shall be linked to a community interest in support of preserving and creating affordable homeownership opportunities.

Another Key Result will be support to nonprofit organizations focused on meeting the homeownership preservation and production targets in the SHIP. This includes leveraging the Community Land Trust(s) and land banking program to support homeownership preservation and production efforts, respectively, where possible.

### Key Results

- Two CLTs, either owned by the Trust or as community cooperatives, are established and funded to prevent displacement and support homeownership for households, particularly BIPOC, with incomes up to 120% AMI (SHIP – CIH 7, FY2022).
- Nonprofit organizations are supported in their efforts to meet the preservation and production targets in the SHIP (SHIP - PPN 1 FY2022).

## Supporting Strategies

- Identify and prioritize funding community-based partners interested in and capable of establishing CLT in communities at risk of displacement.
- Leverage the land banking program to support City-sponsored home rehabilitation efforts.
- Review and consider increasing organizational capacity to implement an SAHT Single Family Land Trust Program to serve targeted households impacted by SAHT multifamily development, as identified by displacement analysis.
- Continue to support nonprofits in the development of infill housing and acquisition rehabilitation programs for targeted populations.

### Objective 6: Engage in Advocacy at Local, State, and Federal Level

San Antonio is experiencing a housing crisis caused by market forces, historic inequities, and institutional barriers. Meanwhile, housing advocates and providers contend with persistent stigma associated with housing that is affordable as well as community resistance to its development, even when proposed as part of mixed-income communities. Successful implementation of its plan requires that the Trust serve as a proactive leader that confronts these issues with greater education and advocacy for compassionate and equitable housing policy.

Throughout the public engagement process, participants highlighted the importance of raising public awareness about the urgent housing crisis and the difficulties associated with tackling the crisis. Further educating community members as to the complexity of available strategies and elevating housing as a priority for the City should help galvanize broader support for housing that is affordable to households with a wide range of incomes. To that end, the Trust is committed to help change the narrative and messaging around the value of equitable living opportunities, and support policies that incentivize or require the inclusion of housing for all in future developments that request or require public funding or resources. The Trust may consider collaborating with others in the local housing ecosystem to explore the feasibility of pursuing inclusionary housing or zoning measures to ensure greater production of homes that are affordable to all current and future San Antonians.

The Trust will also prioritize collaboration with housing partners and practitioners to educate policymakers at the local, state, and federal levels. While its incorporation as a 501 (c)(3) prohibits the Trust from engaging in lobbying efforts, it maintains the ability and willingness to expand its education efforts and better inform the City's legislative agenda. This may include coordinating efforts on a proactive policy approach to change the state legislation related to public facility corporations.

A Key Result will be expanded staff capacity to monitor legislative actions and equip Board and community partners with informational material to review with and inform policymakers. As necessary, the Trust may facilitate needs assessments, research best practices, or provide support for studies that inform legislative actions and increase revenues and resources for the local housing ecosystem.

Another desired result of the increased engagement in education and advocacy will be that its Board and community partners will have a more sophisticated understanding and appreciation for the complexity of financing tools and strategies necessary to make housing developments feasible. This greater understanding should equip stakeholders to coordinate and successfully advocate for policies and a legislative agenda that prioritize the tools and resources needed for San Antonio to properly house all of its residents.

Strategic collaboration among local practitioners and industry representatives in the local housing ecosystem would help to identify shared priorities and strategies for consideration and adoption by legislative representatives. Better informed policymakers at the local, state and federal levels should help to facilitate and increase revenue and resources for housing in San Antonio.

## Key Results

- SAHT has expanded organizational capacity to monitor legislative actions and educate its staff, Board, community, and policymakers.
- SAHT Board members and community partners have a more sophisticated understanding of complex financing tools and strategies to develop housing affordable to all.
- Policymakers are better informed about legislative actions that impact housing, as well as tools and resources used by other cities, in and outside of Texas, that can be implemented in San Antonio to properly house all its residents.
- Increased revenue and resources for the local housing ecosystem.

## Supporting Strategies

- Demonstrate support for proposed housing development projects throughout the City, including during community meetings where LIHTC projects are being considered.
- Invest time and resources to educate Board members and community partners on SAHT's priorities and financing tools.
- SAHT, including Board members, become more active in federal, state, and local housing policy discussions.
- Serve as an active participant and contributor in housing industry groups such as, but not limited to, the Texas Affiliation of Affordable Housing Providers (TAAHP) and its Policy Work Groups.
- Facilitate needs assessments, research best practices, and support studies that inform legislative actions and funding decisions.
- Support the City in achieving the following strategies under Coordinated Housing System (CHS):
  - CHS 3: Advocate at the state and local level for ad valorem tax for small-unit multifamily properties and affordable housing developments.
  - CHS 4: Advocate to expand Medicaid in Texas and partner with Managed Care Organizations to improve housing.
  - CHS 5: Advocate at the federal level for more Housing Choice Vouchers (HCVs) and more funding for vouchers.

# Strategic Vision Implementation

Realizing the Vision and achieving the 2027 Strategic Objectives and Key Results outlined in this plan will require a disciplined and systematic approach to execution. Oftentimes the strategic planning process concludes when the plan has been approved. The trouble is that without an intentional approach to implement, plans fail. What's more, when organizations follow a traditional, more bureaucratic method of operating, they run into the unrelenting force of a fast-paced, ever-changing environment. By implementing a refined set of operating norms and routines, SAHT will be able to more consistently monitor and respond to what it learns about performance and the changing environment.

## SAHT Operating System

This section outlines SAHT's "operating system" on which the organization will implement the Strategic Plan. The system is made up of a set of core operating agreements, rhythms, and tools that aim to bring clarity, alignment, and accountability to how the plan is implemented. When implemented with fidelity, the organizational operating system will drive the focus and collaboration required to achieve the 2027 OKRs.

**Operating Agreements:** the operational norms and principles guiding how the plan is implemented

**Rhythms:** the set of essential and routine activities enabling the systematic and disciplined execution of core operational actions, i.e. actions like data analysis, prioritization, goal monitoring, resourcing, problem solving, and accountability

**Tools:** the technical resources and codified practices used to streamline process and encode success within every rhythm

SAHT has developed a set of foundational Agreements, Rhythms, and Tools to support the implementation of the Strategic Plan. These are a starting point for what will become a more refined operating system over time. The team will make adjustments in real time and will more formally evaluate and improve on an annual and quarterly basis. By starting with a lean version of the operating system, SAHT can take a more agile approach, focusing on making progress.

## Operating Agreements

Operating Agreements represent the norms and principles guiding the day-to-day work at SAHT. At times, they represent working agreements among staff and Board members. Other times they serve as design principles as Rhythms and Tools are defined and refined. The overarching objective is to adopt a framework that advances the Mission and facilitates the achievement of the 2027 Vision. Below is the founding set of Operating Agreements:

- **On an Annual basis, they will measure and report:**
  - 1-Progress towards the 2027 OKRs and
  - 2-Performance towards Annual Goals.
- **On a Quarterly basis, they will measure and report:**
  - 1-Progress towards the Annual Goals and
  - 2-Performance towards our Quarterly Priorities
- **The Leadership team will meet monthly to monitor progress toward quarterly priorities, accelerate action, solve high-impact problems, align on key updates, and identify opportunities to advance the Vision and strengthen the health of SAHT.**
- **Each year, they will review and potentially revise the five-year Vision based on any changes in the housing environment that necessitate adjustments.**
- **Board members will review and provide feedback to Annual Goals.**
- **The Leadership Team will share quarterly priority progress with the Board at the next Board meeting following the close of each quarter.**

## Rhythms

Rhythms represent a set of high-impact and recurring activities geared toward making critical elements of work streamlined and high impact. This includes the approach to goal setting, progress monitoring, data analysis, prioritization, and key problem solving. The table below details the three foundational Rhythms SAHT will put in place to facilitate strategic plan implementation. Each Rhythm is anchored by a recurring meeting in which the team will monitor progress, review performance, and establish the focus for the next cycle.

<i>RHYTHM</i>	<i>FOCUS</i>	<i>FREQUENCY</i>
Annual Sync	<ul style="list-style-type: none"> <li>• Monitor: 2024 Objectives and Key Results</li> <li>• Review: Annual Goals</li> <li>• Refine: 2024 Objectives and Key Results</li> <li>• Define: Next Year's Annual Goals</li> </ul>	Annually
Quarterly Sync	<ul style="list-style-type: none"> <li>• Monitor: Annual Goals</li> <li>• Review: Quarterly Rocks (priorities)</li> <li>• Refine: Annual Goals</li> <li>• Define: Next Quarter's Rocks (priorities)</li> </ul>	Quarterly
The Leadership Team Meeting	<ul style="list-style-type: none"> <li>• Monitor: Quarterly Rocks</li> <li>• Review: Key Action Items</li> <li>• Refine: Quarterly Rocks</li> <li>• Define: Key Action Items</li> </ul>	Bi-Weekly

## Tools

SAHT's Tools represent a handful of technical resources and codified practices used to streamline processes and encode success within every Rhythm. Tools can be both conceptual and technical. A conceptual tool calls on a proven framework or codified practice and applies it to part of the Trust's organizational operating system. A technical Tool leverages a form of technology to enhance or streamline a key activity or Rhythm. Combined, the two serve as the great accelerator of strategic work. Below you will find the foundational tools the Trust will use in launching the Strategic Plan.

<i>CONCEPTUAL</i>	
OKR Framework	Objectives and Key Results is a collaborative goal-setting tool used by teams and individuals to set challenging, ambitious goals with measurable results. OKRs are how to track progress, create alignment, and encourage engagement around measurable goals.
Priorities	Quarterly Priorities represent the most important things to achieve in a given time period. By clearly defining them and proactively scheduling them into plans, teams make it possible to prioritize the most important work.
Vitals	Vitals are the core indicators of impact and organizational health, measured annually in perpetuity.

<i>TECHNICAL</i>	
Click Up	With the guidance of MMG, SAHT will use a web-based work management tool to track progress. It will encourage an agile approach to the review and monitoring of Annual Goals, Quarterly Priorities, and Key Indicators. It will also facilitate the execution of key meetings and monitoring Rhythms. This tool will enable a more transparent, consistent, and action-oriented approach to plan implementation and progress monitoring. alignment, and encourage engagement around measurable goals.

# Annual Plan

A core requirement of the Trust’s operating system is a set of high-leverage, focusing Annual Priorities to ensure clarity and alignment around what is most critical to achieve in the next five quarters. Below, SAHT has identified a set of goals to achieve by September 2023. Each of the goals aligns with its 2027 Strategic Objectives and will be monitored on an ongoing basis during quarterly and annual Rhythms. Given the timing of this strategic planning process, SAHT will complete a modified annual review process in October 2022, at which point it will refine and recommit to the Annual Priorities below.

## Annual Priorities

<b>FY 2023 PRIORITIES</b> <i>(OCT. '22 - SEPT. '23)</i>	<b>2027 OKR ALIGNMENT</b>
<ul style="list-style-type: none"> <li>■ Finalize and share Compass as component of Strategic Plan</li> <li>■ Use website as a tool for education</li> <li>■ Finalize Housing Tax Credit Development Criteria</li> <li>■ Participate in County-Wide Housing System Analysis</li> <li>■ Solicit input and update Annual Plan in summer 2023</li> </ul>	<p>Clarify the Role of the Trust in the Local Housing System</p>
<ul style="list-style-type: none"> <li>■ Adopt and implement an organizational operation system.</li> <li>■ Complete five-year forecast analysis and develop Financial Expenditure Plan</li> <li>■ Assess staff needs to meet Strategic Plan Objectives</li> <li>■ Create a Staff Development Plan</li> </ul>	<p>Invest in SAHT’s Capacity to Grow</p>
<ul style="list-style-type: none"> <li>■ Collaborate with NHSD on Preservation Network</li> <li>■ Analyze expiring use properties to prioritize efforts</li> <li>■ Develop preservation plans for at-risk properties</li> <li>■ Preserve, through development partnership or by providing financial support, at least three properties</li> <li>■ Establish a dedicated revenue source for gap financing to strengthen preservation efforts</li> </ul>	<p>Facilitate the Preservation of Affordable Rental Housing</p>
<ul style="list-style-type: none"> <li>■ Support NHSD’s development of Displacement Impact Tool</li> <li>■ Incorporate tool into final Tax Credit Development Criteria</li> <li>■ Participate in and support five LIHTC projects.</li> <li>■ Identify PSH development partner and initiate pre-development activities on one PSH Development</li> <li>■ Establish multifamily new construction criteria</li> </ul>	<p>Contribute to the Construction of New Affordable Rental Housing</p>
<ul style="list-style-type: none"> <li>■ Identify funding for CLTs</li> <li>■ Establish one or two CLT community-based partner entities</li> <li>■ Identify and/or provide technical assistance to community partner entities</li> </ul>	<p>Support Neighborhood Preservation Efforts</p>
<ul style="list-style-type: none"> <li>■ Assess Board needs and identify or offer training opportunities</li> <li>■ Identify staff resources or partners to lead education and advocacy efforts</li> <li>■ Support development of City’s legislative agenda</li> <li>■ Prepare for participation in 88th Legislative Session (2023)</li> </ul>	<p>Engage in Advocacy at Local, State and Federal Levels</p>

## The Implementation Roadmap

To ensure the Annual Goals and Quarterly Rocks are resourced, monitored, and pursued, there must be a clear schedule to review progress. In mapping out the when and what, we build the core operational activities – such as monitoring and prioritization – into the fabric of core meeting Rhythms, striving to make these critical activities more automatic. The roadmap below captures an overview of this work.

<i>WHEN</i>	<i>WHAT</i>
October 2022	<ul style="list-style-type: none"> <li>■ Set FY2023 Q1 Priorities (Oct - Dec 2022)</li> <li>■ Begin Implementing FY2023 Goals</li> </ul>
January 2023	<ul style="list-style-type: none"> <li>■ Review Q1 Priority Performance</li> <li>■ Monitor Annual Goal Progress</li> <li>■ Refine Annual Goals</li> <li>■ Finalize FY2023 Q2 Rocks</li> </ul>
April 2023	<ul style="list-style-type: none"> <li>■ Review FY2023 Q2 Rock Performance</li> <li>■ Monitor Annual Goal Progress</li> <li>■ Finalize FY2023 Q3 Rocks</li> </ul>

## Conclusion and Next Steps

<i>EARLY WINS: NEAR-TERM INITIATIVES IN PROGRESS</i>
Creation of Identity Document (Compass)
Development of Vitals
Clarity of near-term goals to pursue
Adoption of a framework that will help facilitate plan achievement

This process has also resulted in new tools that can be used to easily onboard stakeholders to the core Identity and Vision of the Trust as well as equip the Trust to implement the plan and measure progress toward achieving it. Defining the Strategic Objectives for the next five years was essential. However, with the adoption of a Trust operating system, the likelihood of realizing the Vision is greatly increased. The last couple of years have shown that we live in a dynamic ever-changing world and, therefore, need tools and resources that equip us to adjust course quickly. With the adoption of the Compass, and operating system, the tools and resources are in place to do just that.

While much progress has already been made, the existing need and remaining work require greater organizational capacity. In order to achieve the ambitious OKRs in this plan, SAHT will require more dedicated staff. The comparison to other housing trusts clearly paints a picture that the San Antonio Housing Trust is under-resourced for the size and complexity of the work it is taking on. Recently, SAHT hired a full-time Development Director. Yet, the staff will likely need to grow by an additional three positions beyond that. Until the staff size reaches seven or eight people, the Trust will need to carefully consider each Quarterly Priority it commits to based on the capacity it has to achieve them. We offer this final word of caution, as it was a recurring theme that was voiced throughout the entire process.

**Put simply, the aspirations of the Trust must be equally paired with the capacity needed to achieve them.**

# Strategic Plan
